

RSB 1 General Purpose Bonsai Fertiliser

RSB 1 General Purpose Bonsai Fertiliser

N:P:K 6:5:7 + 4 MgO + seaweed

100% organic

RSB1 is a general purpose well balanced fertiliser, with added minerals, including magnesium and added seaweed to help promote strong, healthy and sustainable growth. Suitable for all bonsai*, both indoor and outdoor trees.

RSB 1 is a granule fertiliser, primarily dust and odour free (after first watering).

Designed to be slow release, once applied your trees will benefit from continuous fertilising, for up to 6 weeks.

RSB1 is also suitable for container grown plants.

*For your acid loving Bonsai and container grown plants there is RSB 2

Application:

Apply approximately 3-5 grams per 10cm² of bonsai pot surface. Spread evenly over the soil, lightly working into the upper surface. Adjusting the amount according to desired growth.

Re-apply every 6 weeks, during growing season.

RBS fertilisers will not attract pets, pests and other insects.

For hard water areas, mix RSB1 with RSB2, ratio 70:30. This will have the effect of lowering the soil PH level.

Constitution:

Compound organic fertiliser NPK containing magnesium 6-5-7(+4)

6 % total nitrogen (N), of which

6 % organic nitrogen derived from bonemeal, cocoa shells and vinasses

5 % total phosphorus pentoxide (P₂O₅)

7 % potassium oxide (K₂O) soluble in water

4 % total magnesium oxide (MgO)

45 % organic matter derived from bonemeal and cocoa shells

Store in the dry environment, for indefinite use. Not for human consumption.
